## **DETAILED ACTION**

### **Statement of Reasons for Allowance**

Claims 1-3, 5 and 6 are allowed.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Hasegawa discloses a phase locked loop circuit including a phase comparator, a filter, a VCO, a prescaler, a program counter, a swallow counter and a controller. However, one of ordinary skill in the art would not have been motivated to have a control signal generator for outputting a control signal to control frequency division of the voltage controlled oscillator by using set points of the prescaler, the swallow counter, and the program counter, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
